### GAME FEATURES

#### Snake Spins

- The 'Snake Wild' is a wild symbol which does not appear on the reels. It only appears as an overlay symbol during an occasional, random 'Snake Spin'.
- This feature depicts a series of animated snakes on the screen as soon as the spin begins.
- When the result is displayed, between three and ten of the initial symbols will have been replaced by the Snake Wild.
- Wins are then evaluated.
- Scatters do not appear on the reels during the Snake Spin.
- There are no Snake Spins during free spins.

### Scatter Wild

- The Book of Souls symbol is the Scatter symbol and acts as a wild.
- The Scatter symbol can land on any of the reels in the base game and in free spins
- Substitutes for any symbol
- Three or more Scatter Wilds landing anywhere on the panel will award 10 free spins with an expanding special symbol.

### Freespins

- Before the free spins start, one of the four high-paying or five low-paying symbols will be randomly selected to be the special symbol.
- The reels spin as normal (with the Scatter acting as a substituting wild), and the pay lines are evaluated and wins paid.
- If sufficient bonus symbols are visible, each one will expand vertically to cover their entire reel and then be evaluated as line scatters.
- 'Sufficient special symbols' means at least two of the selected special symbol for high paying symbols and at least three of the selected special symbol for low paying symbols
- Free spins can be re-triggered. On any free spin, three or more scattered Book Of Souls symbols will extend the free spin sequence by a further ten free spins (until the maximum prize is won).
- The cash win for sufficient Book Of Souls symbols is also paid during free spins.
- The same bonus symbol is used throughout the free spin session - it is not re-selected if free spins are re-triggered.

### Gamble Ladder

- The ladder gamble can be entered by clicking the gamble button after a win.
- The player's stake (win from normal game) dictates their starting position on the ladder
- The player can gamble their win by clicking the gamble button with the ladder symbol. In case of a win, you will land on the highlighted step above your current one, in the case of a loss, on the highlighted lower one.
- Players can opt to use the Gamble Ladder to potentially increase any single base game win or the total winnings from free spins.
- Players can choose to collect an amount equal to the current highlighted step minus the lower step; the rest remains available as the new Gamble Amount and can still be gambled.
- Where the player enters the gamble feature with a stake that is not a value on the ladder, then the probability of winning or losing is proportional to the gamble amount, and the gamble win.
- The maximum cap value for gamble is 150.00 if the starting win amount is <150 and 30,000.00 if the starting win amount is >=150.

- The player can gamble their win by clicking on a suit colour (red or black) or a suit symbol (hearts, spades, clubs or diamonds).

- In the case of a suit colour gamble, if the player's choice matches the colour of the revealed card then they win double their bet.
- Picking either a Red or Black card, there is a 50/50 chance of winning.
- In the case of a suit symbol gamble, if the player's choice matches the suit symbol of the revealed card then they win quadruple their bet.
- The history shows the last 5 cards to be drawn of the current gamble game.
- Players can choose to collect their winnings or to gamble it again.
- If the player's choice is incorrect, the gamble amount will be lost and the game is finished, returning the player to the main slot game.
- The card gamble option is available when the 4x the current game round win amount is less than or equal to a maximum of €30,000
- The maximum win for Card Gamble is the amount  $\leq$  €30,000. If any further win in the card game could possibly exceed this value then the card gamble game will end.
