GAME RULES

About the Game

15 Armadillos is a 5 reel 3 row, 243 ways game paying left to right featuring wild respins, pick accumulators, Free Spins with an pre free spins pick bonus booster feature, and an Armadillo Link feature.

Wild Respins

Landing 1 or more wild will create a respin after all wins are paid for the spin. If one or more extra wilds land on the reels during a respin, another respin will be awarded.

If 3 or more wilds are on the reels after all respins are complete, the Armadillo link feature will trigger.

Armadillo Link

All wilds that lock onto the screen during the wild respin feature are converted to Armadillo credit symbols and awarded random credits accordingly. Other symbols disappear and these remaining positions on the reels will spin independently for 3 link spins to try and land more armadillo credit symbols. If at least 1 armadillo credit symbol lands on a respin, the number of link spins is reset to 3. There are 4 different armadillo credit symbols that may land during the link spins:

Regular Armadillo credit symbol – Awards from 1x – 100x bet

Sum Armadillo credit symbol – Awards the sum of all [Armadillo] on the screen

Spread Armadillo credit symbol – Increases award on all other coins by amount awarded on this coin

Expanding Armadillo credit symbol – Coin awarded on all positions in the same column and these positions are filled with coins if they have not already, awarding the next highest jackpot.

Completely filling 1,2,3,4 or all 5 columns will award the mini, minor, major, mega or grand jackpot respectively. Only the highest jackpot is awarded at the end of the link in addition to all the other coin wins.

Pick Enhancement Accumulation

Each of the 5 animals has a corresponding pick bonus accumulation meter which progresses with wins. Initially the number of picks for each bet level begin at 3.

While playing the base game, each win made on one of the animals will fill up it's corresponding meter. Each time an animal meter completely fills, the picks shown for the animal increments by 1 and the meter resets toward progress for an additional pick. When the free spins begin, the player is awarded the number of picks that were accumulated for the animal selected before starting the free spins. After the free spins, the number of picks are reset to 3 for that animal.

If a pick meter increments to 10 picks before being selected, the Free Spins Bonus is automatically triggered for the meter's corresponding animal with 10 picks and reset to 3 after the Free Spins Bonus is complete.
