GAME DESCRIPTION

Armadillo Studios' latest launch - Hot Hot Honey - is going to heat things up.

The three Annas, our AAA bee combo, have banded up to provide enough hot honey to satisfy everyone's appetite!

Join AAA on a delightful bonus trail filled with money-awarding flowers and exciting experiences, such as testing out super wings, collecting honey jars of mystery prizes, and hearts in order to live longer. Watch out for pesky ninja spiders and reach the end of the trail to receive a huge prize. Prizepots, free spins, and bonus symbols add variety to the game.

The Rollover Respins feature has full sticky reels rolover, allowing more symbols to appear

on new reels. This allows for more symbols to stick, generating more respins with higher symbol pays and an increasing multiplier for endless respin excitement that makes you experience the true thrill of Hot Hot Honey!

Choose your super symbol wisely in the free spins pick bonus as it will be the essential symbol for your honey-sticking power, dominating the reels and the respins. Combine this symbol with a non-resetting multiplier and endless prizepot accumulation, the potential for big wins is clearly at its highest during the free spins, especially those lucky enough to trigger it with extra free spins.

RESPINS

Any time 5 or more of the same symbol appear on the reels, they stick, activating respins on all non-sticky symbol positions. Land at least one more of the activated symbol(s) to keep the respins going.

ROLLOVERS

ROLLOVERS

Stick full columns to rolover reels and eliminate them, making room for new reels to appear. Reel Rollovers occur after a respin fails to create a stick, giving a second chance to players. If at least one more activated symbol appears on a new reel, it sticks and the respins continue. Each Reel Rollover increases the multiplier.

ROLLOVER MULTIPLIER HIVE

A full sticky column of 3 of the same Hot Hot Honey (Anna, Anna, or Anna) adds +2x to the multiplier hive. A full sticky column of 3 of any other combination adds +1x to the multiplier hive. The multiplier applies to the total win of all the symbol counts at the end of the feature.

DOUBLE STICKY SYMBOL ACTIVATIONS

Land 5 or more of a same second symbol on an initial spin or any respin to trigger respins with two activated sticky symbols.

Double Sticky symbols creates huge win potential moments as only one activated symbol needs to stick to keep the respins going.

Triple activated symbols or more are also possible in the base and the free spins.

FREE SPINS

How to trigger?

Free Spin symbols appear in the base game initial spin and on respins. Each free spin symbol that lands is incremented into the counter meter. Getting 3 or more free spins counted triggers the free spins. The number of free spins awarded equals the number of free spins counted. The more free spins you can land the higher your free spin win potential.

How it enhances game play and win potential?

Pick a box to reveal your super symbol. The super symbol appears more frequently on the reels for easier Rollover Respin triggers and retriggers. The Rollover Hive meter does not reset for the entire free spins. The multiplier continues to grow as the free spins progress. Prizepot accumulation progress does not reset.

A prizepot win is easier by not needing to get all the prizepots on a single spin.

TRAIL BONUS

How to trigger?

Bonus symbols appear in the base game initial spin and on respins. Each bonus symbol that lands is incremented into the counter meter.

How it enhances game play and win potential?

Getting 3 or more bonus symbols triggers the free spins.

More bonus symbols increase the pay before entering the bonus. Continue spinning the flower to reveal 1-6 petals to win money or get special features.
